

I want to comment on the proposed changes in LPFM. I currently listen to K-LOVE on an FM translator. This station is very important to me and I feel that there is no other substitute for it in my area. I would not want to lose access to this station if the new rules on LPFM would go through. K-LOVE may be a national station, but they provide information on local events as well. K-LOVE is a vital part of my life and I know many others who enjoy their ministry, which (as I said) is not duplicated by any other station in the area.
